

Customer Notes for Abiquo 2.2

1. Document Description

This document provides information about upgrading to Abiquo 2.2 for Abiquo Customers only. It covers the download of the script to upgrade accounting.

2. Download of Script to Upgrade Accounting

Download and run the upgrade script for the Abiquo database for accounting before starting to upgrade from Abiquo 2.0-HF7 to 2.2. The script can be found at:

<http://download.abiquo.com/enterprise/updates/2.2/accounting-refactor-sql-script.sql>

user: enterprise
password: tCs3125

Script MD5:

2e8d3a62f4f2a6c1421746ad9f9d05e3 accounting-refactor-sql-script.sql

Download Command

You can download it from the servers with the command:

```
wget --user=enterprise --password=tCs3125 \  
http://download.abiquo.com/enterprise/updates/2.2/accounting-refactor-sql-script.sql
```

Now follow the general [Abiquo upgrade instructions](#) in the Administrator's Guide for Upgrading from a Previous Version.

Before you upgrade Abiquo platform servers in the above process, upgrade the database for accounting by following the instructions in [Upgrading Accounting from 2.0-HF7 to 2.2](#).
